You and Suha were like a son and daughter to me.

What I have sent to you with the letter is all of what Suha was researching, compiled on a disc.

The key inside it is my laboratory, so I hope you'll protect my laboratory along with the research materials

If you really want to do something for Suha, you must advocate to the world about Suha's findings...

I hope to see you again one day , but I don't think we'll be able to meet any time soon.

P-professor...

Once again... Your job is not to die for Suha, but to protect her research instead...

I know that you feel terrible about losing shaira to save her, but I hope you don't shoot of to go get Suha... Suha would want that of her!
